

HELIOS

A Complete **LVT** Floor
Maintenance Program

www.pioneereclipse.com

Luxury Vinyl Tile (LVT) is a popular flooring choice that can be cost effective and versatile in terms of design and color options. LVT flooring is considered durable, low maintenance, and easy to clean.

A common reason to buy LVT is to avoid the coating and stripping cycles to save money - based on the misconception that “no maintenance is required”. However, a **low maintenance program of cleaning, protecting and rejuvenating is recommended and beneficial** to extend the life of the floor surface.

Properly maintaining the wear layer of LVT preserves the floors appearance and extends its life. The processes of cleaning, protecting and rejuvenating LVT are the same as other resilient floor types, however, the right chemicals must be used. The goal is to extend the life of the wear layer without damage or discoloration.

All Helios Products Have NO Intentionally Added PFAS!

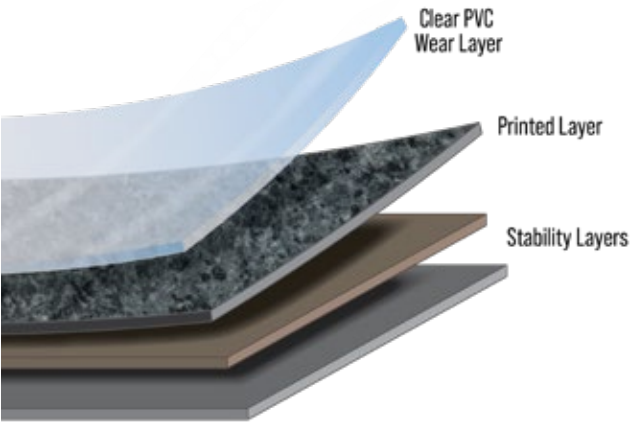

- No fluorosurfactants
- No “forever chemicals”
- Formulated for peace of mind

Understanding LVT

Luxury Vinyl Tile is manufactured to look like real stone, tile, natural wood, as well as providing endless design color and texture options while offering more practical benefits such as:

- Low cost
- Easy installation
- Low maintenance
- Durable

LVT is a series of layers COMPRESSED together:

- Clear PVC wear layer protects the printed layer
- Printed layer holds the high-definition design
- Stability layers helps the flooring lay flat and level

Pioneer Eclipse Helios Complete Care Program

Cleaning

Neutral pH cleaner to remove embedded dirt and soil that can cause scratches, extending the life of the finish and/or wear layer.

Helios H303 Daily Neutral Cleaner

A powerful neutral cleaner ideal for daily use or periodic deep scrubs.

- Film free, low foaming
- Ideal for use on VCT and LVT floors
- Removes oils and grease
- Effectively cleans without damage or discoloration

Maintaining

A cleaner/maintainer applied periodically as a sacrificial wear layer to protect flooring from scratches and degradation.

Helios H216 Floor Maintainer

A multi-purpose product that helps reduce the labor needed to maintain coating.

- Maintains coating elasticity, prevents cracks and chips
- Conditions flooring — fills in minor scuffs and scratches
- Available in high gloss finish and matte finish

Stripping & Coating

Low maintenance coatings that protect the wear layer and improve clean-ability. Use to repair badly worn flooring or on new flooring to prevent scuffs, scratches and routine wear.

Helios H522 Floor Stripper

An extra strength floor stripper specifically formulated for use on VCT and LVT floors.

- Excellent stripping performance
- Will not damage or discolor vinyl floors when used according to directions

Helios H106 Floor Coating

A true no-buff finish with outstanding resistance to scuffs, scratches, and heel marks.

- Repairable, resists dirt embedding
- **Gloss sheen available**
- High gloss with or without burnishing
- **Matte sheen available**
- Contains *nano-ceramic* technology
- Won't develop glossy traffic patterns like traditional matted floor finishes

Available in 2.5 US gallons and 1.06 US gallons
These recommended Pioneer Eclipse floor care products are safe to use on most adjoining floor types of either resilient or hard floor materials. This information is based on internal testing and best use practices. No guarantee is expressed or implied.
